DESIGNED FOR COMFORT.
ENGINEERED FOR PROTECTION.

Flash-fire,
Petroleum
Exposure, and
Environmental
Protection

Lightweight,
Comfortable,
and Durable

GORE-TEX PYRAD® products offer an ideal balance of protection, comfort, and durability for oil & gas workers in physically demanding and extreme environmental conditions.

Made with GORE-TEX PYRAD® fabric, this waterproof, windproof, breathable line of products provide an optimum combination of protection against flash fire, petroleum, oil-based hazards, and hot liquids/steam without sacrificing comfort in a lightweight, low bulk form.

Safety & Protection

- Flash-fire resistant
- Meets or exceeds ASTM F2733-09
- Meets ASTM F1891 Arc Rating: $E_{BT} > 8.8\text{cal/cm}^2$
- Hot liquid and steam resistant
- Petroleum and oil-based mud resistant
- Durable foul weather protection - rain, wind, snow

Retro-reflectivity

- Hi-vis yellow and hi-vis orange certified specifications

	ANSI 107-15	CSA Z96-15
Jacket	Type R, Class 2	Class 2, Level 2
Bib	Supplemental E	
Ensemble (Jacket + Bib)	Type R, Class 3	Class 3, Level 2

- Navy specifications

Retro-reflective trim applied to ensemble (Jacket + Bib) as prescribed by ANSI 107-15 Type O, Class 1 and CSA Z96-15 Class 1, Level FR

Comfort

- Superior breathability for excellent sweat management
- Durably waterproof in a broad range of environments
- Windproof protection for enhanced thermal comfort
- Low bulk with increased range of motion

Durability & Care

- Resistant to abrasion and snags
- Resistant to cracking in extreme low temperatures

Easy Care

- Reduced risk of residual contaminants after wash
- Machine wash and dry
