U.S. ARMY FIRE RESISTANT ENVIRONMENTAL ENSEMBLE - EWOL PARKA & TROUSERS WITH GORE-TEX® FABRIC

Engineered with specialized flame-retardant and antistatic properties, the lightweight Fire-Resistant Environmental Ensemble (FREE) withstands heat and flame threats that soldiers may encounter in combat vehicle crew and aviation mission sets.

FREE is designed with a Nomex® outer layer, durably waterproof, windproof, and breathable GORE-TEX® membrane, and a Nomex® liner. Highly breathable GORE-TEX® fabric keeps the user comfortable by allowing moisture to escape from the garment. GORE-TEX® fabric maintains protection over time, even after exposure to JP-8, DEET, petroleum, oils, and lubricants. The n-IR signature reduction technology is durable for the life of the product.

Only routine washing and drying is required to maintain the performance, and extends the life of the garment.

For more than 30 years, W. L. Gore & Associates, Inc. has developed high-performance fabrics that withstand the harsh environments military, law enforcement, fire and rescue professionals encounter on their missions. Gore combines research in the fundamental science of fluoropolymers with a thorough understanding of the challenges these professionals face to engineer durable protective fabrics. After extensive laboratory testing and field trials, Gore stands behind these fabrics, ensuring that each product does what we say it will do.

PERFORMANCE ENHANCING DESIGN FEATURES

- Durably waterproof, windproof, and breathable, even after laundering
- Flame-resistant
- Penetration-resistant against JP-8, DEET, petroleum, oils, and lubricants
- Dissipates electrostatic charges
- Lightweight construction
- Designated "Safe-to-Fly" by the U.S. Army
- Berry compliant
- Available in OCP and UCP
