

GORE-TEX CROSSTECH[®] FOOTWEAR FABRIC

GORE-TEX
PRODUCTS

WE COULDN'T FIND ANY VOLUNTEERS TO WALK THROUGH
500 MILES OF WATER, SO WE BUILT A MACHINE.

- ◆ Superior comfort from high breathability
- ◆ Penetration protection against blood, body fluids, and NFPA common chemicals
- ◆ Better agility with leather boots
- ◆ Reduced fatigue due to lighter weight
- ◆ Easy to decontaminate

THE IDEAL COMBINATION OF PROTECTION, AGILITY, AND COMFORT

It's no accident that GORE-TEX CROSSTECH® Footwear Fabric is the industry leader. Gore has been creating solutions for the fire and safety industry for over 35 years. The advanced technology in GORE-TEX CROSSTECH® Footwear Fabric provides durable, breathable protection without compromising comfort or agility.

PROTECTS AGAINST LIQUID PENETRATION

GORE-TEX CROSSTECH® Footwear Fabric meets and exceeds the standards for blood and body fluid penetration protection. Leather footwear with GORE-TEX CROSSTECH® Footwear Fabric also protects against penetration by water and NFPA common chemicals. Every seam in footwear made with GORE-TEX CROSSTECH® Footwear Fabric is seam-sealed with GORE-SEAM® tape. It's an exclusive technology developed and supported by Gore to provide maximum protection to the people in the field.

BETTER FIT, LESS FATIGUE

Leather footwear with GORE-TEX CROSSTECH® Footwear Fabric is lighter weight and offers better agility. Unlike rubber footwear, this leather footwear provides a breathable barrier against contaminants while keeping feet dry and comfortable. Leather boots made with GORE-TEX CROSSTECH® Footwear Fabric are the better-fit, fatigue-fighting footwear of choice for firefighters.

RELIABLY WATERPROOF

Leather footwear made with GORE-TEX CROSSTECH® Footwear Fabric is highly breathable and waterproof. It keeps feet dry while resisting moisture, even when standing in water. And it retains its waterproof protection after exposure to contaminants.

THERMAL PROTECTION

GORE-TEX CROSSTECH® Footwear Fabric stands up to the tough conditions structural firefighters face in the field. It is exceptionally durable even when repeatedly exposed to extreme heat.

MOST BREATHABLE. LESS HEAT STRESS. NO EQUIVALENT.

Warning: No products, including garments, footwear and accessories, protect completely, even when new; their protective performance will decline with wear, tear, abrasion, and other damage associated with use.

EASY CARE AND DECONTAMINATION

Leather footwear made with GORE-TEX CROSSTECH® Footwear Fabric is easy to clean and decontaminate. Most cleanups can be done with a cloth or brush, and soap and water. With this simple cleaning procedure, many chemicals can be easily removed.

GORE-TEX CROSSTECH®
FOOTWEAR

Every bootie made out of GORE-TEX CROSSTECH® Footwear Fabric must pass a waterproofness test before being used in leather footwear. The bootie is filled with air and then submerged in water to check for leaks.
